FOSTERING PLAY + STREAM + INTENTIONALITY

YOUR AT-HOME CURRICULUM HAS ARRIVED.

EARLY CHILDHOOD CURRICULUM:

-  The curriculum is uniquely designed to support children ages 1 – 3. Lesson Plans can be easily modified to support ages 4 and 5 to address each center’s demographics.
-  Themes are INTERCHANGEABLE! Educators can move from one theme to the next when following the scope and sequence.
-  Fidelity implementation is three days a week to allow educators the resources to accurately plan, measure success, intervene, and add in their own flair.
-  STREAM is integrated into each play-focused lesson plan to increase rigor and enhance kindergarten readiness.
-  Aligned to Head Start and State Standards.
-  Cost-effective reusable 11" x13" Lesson Plans (Erasable).
 - *Implementation instructions*
 - *Professional development strategies*
 - *Classroom modification tips (special needs)*

CURRICULUM CONTENTS:

-  Integration of Social/ Emotional Development, Diversity Strategies, & ACEs
-  20 wholistic, *interchangeable* Lesson Plans

WE ARE DEVELOPING CRITICAL THINKERS WHO WILL BUILD SUSTAINABLE, BEAUTIFUL, AND HEALTHY FUTURES.

MEET THE FOUNDER + LEAD AUTHOR:

As an expert in early childhood education and consulting, I became acutely aware of the challenges educators face when trying to implement multiple instructional tools into their environment. I saw firsthand the need to meet early childhood learning standards, address social and emotional competencies, infuse technology, enhance literacy and language, and build educators' capacity as they impact the vital components in early development and future learning. Hence the birth of Curious Elephant, a developmentally appropriate and affordable early childhood educational curriculum for both children and educators.

Curious Elephant is a dynamic 44-week curriculum that focuses on wholistic, brain-based STREAM (Science, Technology, Reading, Engineering, Art, Math) learning in and out of the classroom.

The curriculum is designed for intentional implementation - three days a week, with supporting STREAM activities the remaining two days. Curious Elephant offers the flexibility of moving from one theme to another via interchangeable lesson plans while still maintaining a rigorous play-based environment.

If high-quality early education practices are your aim, this easy to implement curriculum is for you. Our lesson plans are inclusive! We address diversity, advocate for social-emotional health, and incorporate special needs modifications.

Together We Can!

EDUCATOR SUPPORT:

The Curious Elephant curriculum also includes monthly professional development and educator implementation strategies. You will also have access to discounts to quarterly and annual conferences. In addition, we offer one-of-a-kind training support via YouTube. YouTube support videos are available for both educators, children, and their families.
